## **DETAILED ACTION**

### ***Claim Allowance***

Claims 9-12 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not suggest or teach a method of manufacturing an optical element on a surface of which dielectric convex portions are periodically aligned, particularly removing a portion of the dielectric multiple film layer depending on the intensity distribution of the laser beam so as to leave the other portions as the periodically aligned dielectric convex portions having a grating constant corresponding to the wavelength of the beam.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
